

23 February 1956

MEMORANDUM FOR: Deputy Director (Support)

1. At its 20 February 1956 meeting the Administration Career Board recommended approval of its committee report, as amended and modified and attached as Tab A. It also recommended approval of the chart, attached as Tab B, outlining graphically the proposed Support Career Service with its component services. However, it suggests that implementation of the proposals contained in the report be delayed until completion of the re-examination of positions and personnel referred to in the minutes of the 20 February meeting, paragraph 5 (c).

2. The Board further recommends that the proposed Support Career Service elements need not have formal Boards, but that the Career Service may act in place of a Board.
